Immunizations 2017-2018

According to state law, every student must meet all vaccination requirements by October 15, 2017. According to state law, students who do not meet these requirements must be suspended from school. There are only two acceptable exceptions. The first acceptable exception is based on a medical reason. This must be written by a healthcare provider and it is through the Illinois Department of Health. The second acceptable exception is based on a religious reason. This must be written by a healthcare provider and it is through the Illinois Department of Health. Therefore, students will be suspended from school beginning October 16, 2017 unless they have: 1) provided proof of required immunizations, 2) provided written proof of medical exception through the IDPH, or 3) provided written proof of religious exception through the IDPH. Please take care of this. Thank you for your attention to this important legal requirement.

Air Condition in the Bowen Building

At the May 15, 2017 board of education meeting, the board decided not to take action on installing air conditioning in the Bowen building. As you know, we have spent this past year working with our architects and working on the details to install air conditioning into the Bowen building. Matter of fact, the game plan was and is ready to go. However, due to the combination of the state not paying us (they owe us over \$300,000) AND the county facilities tax not passing in April (this would have generated over \$100,00 in extra revenue), we are not in financial position to move forward with this project at this time. It a nutshell, it would be fiscally

irresponsible to move forward on this project during this perfect storm. With that said, we are committed to installing air conditioning in the Bowen building. Thank you for your understanding. As always, I will keep you updated and informed.
