2013 – 2014 System-Wide Goals

HHEALTH

To enhance health and wellness education, employing a systemic approach to curriculum, instruction, extracurricular activities and school culture.

EEVALUATION

To successfully implement the new state mandated Educator Evaluation Framework.

ACHIEVEMENT GAP

To narrow the achievement gap as defined by the indicators of success which comprise the system-wide measurement tool.

RTI

To implement a system-wide RTI program in a teaching and learning environment that integrates teacher collaboration, sharing of best practices, differentiated instruction, and the use of data to inform instruction.

TECHNOLOGY

To increasingly employ instructional technology for the purpose of improving student proficiency with core content knowledge and skills, while building technology-related competencies.
