

Dear Parents and Students,

I want to first wish each of you good health and well-being during this challenging time. As we begin our adjustment to Governor Gretchen Whitmer's latest executive order on April 2 to close school buildings for the remainder of the 2019-2020 school year, I want to assure you that our Tuition Teachers and support staff are focused on providing your student with access to programs and services while we are at a distance.

Beginning Tuesday, April 14, all Tuition students will be offered the opportunity to participate in a virtual learning plan in order to access academic content and information for the remainder of the school year. With the guidance from our officials at the Michigan Department of Education and our Local Intermediate School District, your child's teacher will be in contact with you, either by phone, email or Remind App to share the plans through May 14. We will inform you if any additional adjustments are needed after the end date.

Please keep in contact with our district website and social media posts if you are able.

In closing, we will continue to have hope that we will be together soon and that all of us will be well, safe, and healthy. Please know that each day, we are informed of guidance and direction from our officials at the Michigan Department of Education and our Local Intermediate School District in order to determine the best decision and judgement for the care and welfare of our students and staff. Please know, we are facing these challenges together, with you, and we will continue to focus our efforts on our students. I will continue to make myself available to answer any questions and/or listen to concerns you may have.

Stay safe, healthy, and strong.

Stefanie Heddy
