RE: Schickler Elementary

Parents and Staff --

We received news that a student is positive or probable for COVID-19. The individual was present at Schickler Elementary on the following dates:

January 18 (AM Bus #5 and PM Bus #15)

District officials, in coordination with the Lapeer County Health Department (LCHD), have identified students and staff who have been within six feet (three feet if masked) for more than 15 minutes with the individuals. **Those individuals have been contacted in accordance with our health and safety guidelines.**

The District will continue to cooperate with LCHD to assist in contact tracing and notification if there are additional positive school-associated cases.

We ask that all parents check students for symptoms daily prior to sending them to school. Any student or staff member exhibiting symptoms of COVID-19 should stay home. *COVID-19 symptoms include fever, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea.*

Visit the District website and click on the COVID-19 Reporting graphic for more information regarding COVID-19 safety protocols and up-to-date case information.

Regards,

Matt Wandrie
Superintendent
Lapeer Community Schools
