

Pregnancy

Section 1. General. If a student is pregnant, she must obtain a doctor's statement and present it to the principal. If the doctor recommends that she remain in school, the school will make every effort to accommodate the student's needs as requested by the doctor. In the best interest of the student, attendance shall terminate when her physical and/or emotional condition constitutes a problem. Every attempt should be made to coordinate termination of attendance with the beginning of a semester. Girls under sixteen (16) years of age must attend school unless a doctor specifically states a student is unable to attend school.
