

## Composer Quick Facts

Goal: Find five interesting facts about your composer.

First person in the group is the leader and will guide the group on your presentation. The other two or three members will help figure out the “five interesting facts”. Everyone needs to work together and listen to one another. Your group will highlight the facts in the text and then practice your presentation. Please practice speaking clearly and being serious about sharing your information about your composer with the class.

Today I am part of a group, but I will also go around and help other groups with any questions that arise.
