

BUSD Illness Protocol

I need to stay home if:

						
Fever	Vomiting	Diarrhea	Rash	Head Lice	Eye Infection	Hospital stay and/or ER visit
Temperature of 100 or higher	Within the past 24 hours	Within the past 24 hours	Body rash with fever	Itchy head, active lice	Redness, itching, and "crusty" drainage from eye	Hospital stay and/or ER visit

I am ready to come back to school when:

Fever free for 24 hours without the use of fever reducing medication, i.e. Tylenol or Motrin.	Free from vomiting for 24 hours.	Free from diarrhea for at least 24 hours.	Free from rash or fever. Have been evaluated by doctor if needed.	Treated with appropriate lice treatment at home and checked in the office upon return to school.	Evaluated by my doctor and have note to return to school.	Released by medical provider to return to school.

CDC always recommends everyday preventative actions to help prevent the spread of viruses including:

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with your unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

These are everyday habits that can help prevent the spread of viruses.
