

October 28, 2016

Dear IB Parents and Students,

As you may be aware, the Rowan University College of Education **TEACH and Discover INDIA! Program** has partnered with the **Salem High School IB students** on a project to serve the students at the **Diane Raj Village School in Bharatpur, India.**

As global partners with the Diane Raj School, Rowan education majors will once again travel to India to further the service learning initiatives that have taken place over the past two years. We are excited to have the Salem High School IB students working with us as we further our mission and commitment to our international friends.

This year, 15 Rowan education majors will be traveling to India for two weeks in January. During their travels, together with visiting several schools from public, to private to village, they will network with professors and peers at the Jaipur National University.

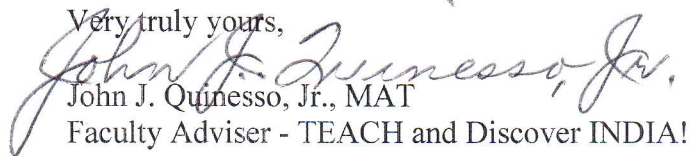

For your contribution, Salem IB students will be preparing a classroom design/blueprint for an ongoing project we anticipate to continue each year ultimately resulting in a fully functional 21st century classroom. Your faculty adviser, Mrs. Christina Pierangeli, will provide you with additional information.

Since our students will be working closely with you, we are excited to invite you to meet us at our next pre-travel meeting on **Saturday, November 12, 2016, from 10:00 AM – 12 Noon in James Hall - Room 3109.** We feel that interacting with one another on a personal basis will enhance the experience for both our education majors and the IB students as we communicate between continents while we are traveling.

Please consider coming to spend time with us on **November 12th at 10:00 AM.**

If you have any questions, please do not hesitate to contact Mr. Mulhorn, Mrs. Pierangeli, or me.

Very truly yours,

John J. Quinesso, Jr., MAT
Faculty Adviser - TEACH and Discover INDIA!
