

WHAT DOES PAC MEAN?

WHAT IS PAC?

Its acronym stands for Parent Advisory Committee.

Our PAC is formed with parents whose students are part of our school district. This committee offers the opportunity for parents or legal guardians to learn more in depth about our school district through the information and programs we offer in our PAC committee.

The goal for PAC families' involvement is to bridge the gap between parent, school, and the community and to improve the relationships between home and school, which empowers families to become proactive in their children's education on a continuous basis. The program does this by providing information, training, and assistance through family/parent education courses, activities, and referral services.

WHAT ARE SOME BENEFITS OFFERED BY PAC?

- PAC gives parents the opportunity to register with us and to become a committee member
- Parents become the voice of the school district.
- Parents come to have a broad knowledge of how the school district works, and learn more of the different programs available for their children/students, and for the parents.
- Parents become the image that makes their children proud, and the positive example for the other parents of Zion6, by merely being involved helps to make a difference.
- The PAC Committee receives annual training.

WHAT IS FACECAFE?

It is a virtual platform that was created during the sad development of COVID-19. Our virtual platform offers

the flexibility to attend meetings, conferences, workshops and other educational activities virtually. This provided a lot of support to families during difficult times with COVID-19. Now it has become another positive communication tool between families and Z6 employees.

WHAT IS FAMILY AND COMMUNITY ENGAGEMENT?

It is an interactive process through which Family and Community Engagement staff,

families, students and teachers build good positive relationships and are oriented to educational and informative objectives. It is a shared responsibility that requires as its main purposes:

- 1) Help our students achieve a better academic performance.
- 2) Make students proud of their parents for their involvement in the entire school district, their school, and the community.
- 3) To help more parents or families.
