The Solar Energy Association of Connecticut invites you

to a Seminar & Discussion
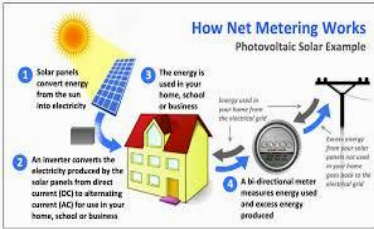

on

Saturday, Sept 29, 2018 (2 pm)

at the

Glastonbury Public Library

2407 Main Street, Glastonbury, Connecticut

" Solar & Renewable Energy in Connecticut – Overview of Legislation; Outlook for Residential Solar PV Market "

featuring

Selya Price [Senior Mgr, Statutory and Infrastructure Programs, CT Green Bank]
Matt Macunas [Legislative Liaison & Marketing Manager, CT Green Bank]

CONNECTICUT GREEN BANK℠

*ADVANCE REGISTRATION REQUESTED.* - Call 860-233-5684, 860-649-9827, 860-489-9555, or 203-613-4363

The Solar PV market has done well during the last few years. Changes are expected now, especially in the context of Net-Metering and Utility-related issues. What are the implications of recent Energy Legislation in CT ? What can we expect for Solar & Renewable Energy now ? What programs can we expect at the State and Federal levels ? What will be the role of Energy Storage ?

*In this seminar, speakers from Connecticut Green Bank will provide an overview and status of: (1) Recently passed **Energy Legislation, Public Act 18-50**, an Act Concerning Connecticut's Energy Future, and (2) The Residential **Solar PV market** in Connecticut. The presentation will highlight the major clean energy provisions of PA 18-50 and summarize early progress made to implement these provisions, in particular future compensation tariffs that will replace net metering. The presentation will describe future compensation tariff options that will be available to residential solar PV customers, as specified in PA 18-50, and potential implications for the residential solar PV market.*

Following the speakers' presentations, we invite others with knowledge and experience relating to such topics to offer their comments or succinct accounts of happenings and issues relating to Solar and renewable energy in Connecticut and elsewhere in the nation.

Come & find out how you may help shape the future in CT & the nation during these changing times.

DIRECTIONS: The location is **near the intersection of Hebron Avenue and Main Street in Glastonbury**, Connecticut
From Rte I-84 near Hartford – Exit 55 for **Rte 2 EAST** – on Rte 2 East, go about 5 miles – take **Exit 8 (Hebron Ave)** --Turn **RIGHT** on to Hebron Avenue – go about 1/2 mile – turn **RIGHT** on to Main Street – about 50 yards – take **first Left** on to Addie Lane –- goes into the Parking area behind the Library. Take the Rear Entrance – and go to the Community Room.

Enhancing Solar PV with Storage →

This event is organized by the
Solar Energy Association of Connecticut, Inc. ,
A nonprofit, professional, educational organization (active since 1976)
which supports and promotes the use of renewable energies and environmentally benign technologies.
