ARTICLE II: ATTENDANCE

ATTENDANCE POLICY

HB 2692 requires school district attendance officers to notify the Department of Public Safety when a child under 18 withdraws from school through an enrollment status form, unless the student is withdrawn due to circumstances beyond his/her control, a lawful excuse, or transfer to another school or home schooled as confirmed in writing from the parent or legal guardian.

A student is only allowed to miss ten (10) class periods, whether excused or unexcused/absent without valid excuse, in one semester (with the exception of school related absences). Eleven (11) or more absences, whether excused or unexcused/absent without valid excuse, will result in loss of credit for the class. Missing 20 minutes or more – whether the beginning, middle, or end – of a class is considered an absence.

A. Types of Absences – Regular attendance is an integral part of the learning process.

- 1) Excused Absence – Counts against attendance for credit but allows students to make-up work. Parents must contact school within 48 hours of absence.
- 2) Exempt Absence – Does not count against the required attendance for credit.
 - a) Medical verification for absence within five (5) school days of absence.
 - b) School activity.
 - c) Death of immediate family member.
- 3) Unexcused Absence – A result of no parental contact or truancy. Work may be made up for no credit and absences count toward required attendance for credit. Missing 20 minutes or more – whether the beginning, middle, or end – of a class is considered an absence.

B. Reporting an Absence

To excuse an absence, a parent needs to call the general attendance line that correlates to their student's grade level (580-492-3657 for 7th/8th grades; 580-492-3656 for 6th grade; 580-492-3655 for 5th grade) within 48 hours of the absence and include student name and reason for absence.

C. Truancy – Student Absent Without Valid Excuse

Examples of absences without valid excuse:

1. Being absent for any reason not listed as an excused absence.
2. Leaving school without first checking out at the attendance office.
3. Being ill and staying in the restroom instead of checking in

with the nurse or office.

4. Coming to school, but failing to attend class.
5. Obtaining a hall pass to a particular destination, then not reporting there and back.
6. Late arrival or non-attendance due to car trouble.
7. Being in an unauthorized area will be considered truant (being in the parking lots, off campus, and other areas designated as off limits).

If the child is absent without valid excuse four (4) or more days or parts of days within a four-week period or is absent without valid excuse for ten (10) or more days or parts of days within a semester, the attendance officer shall notify the parent, guardian, or custodian of the child and immediately report such absences to the district attorney in the county wherein the school is located for juvenile proceedings pursuant to Title 10 of the Oklahoma Statutes. (Reference: 700.S. 10-106)

Truancy Consequences:

- 1st offense – 5 days AISP
- 2nd offense – 10 days AISP
- 3rd offense – 15 days AISP

D. Checking In/Out

If a student finds it necessary to leave school during the day, he/she must check out at the principal's office. No student will be permitted to leave unless his/her parent has notified the principal in advance. In case of illness, the parent will be contacted. Any student leaving school without permission from the principal will be considered truant and can expect disciplinary action, as well as an unexcused absence.

E. Tardy

You are tardy if you are not in the classroom when class begins. Tardies will be documented by each teacher, with resulting consequences. A tardy becomes an absence 20 minutes after the designated time for class to begin. Consequences of unexpected tardies are per class, per semester.

2nd unexcused tardy: Teacher contacts parent

3rd unexcused tardy: Teacher contacts parent, Lunch detention

4th unexcused tardy: Teacher contacts parent, Saturday School

5th unexcused tardy: Teacher contacts parent, Saturday School

6th unexcused tardy: Teacher contacts parent, 1 day AISP

7th unexcused tardy: Teacher contacts parent, 3 days AISP

In an effort to promote students being on time to class, round-up will be periodically used to ensure that students are getting to class on time. The administration will notify the teachers that the

roundup is going to occur, and any student who is late will be rounded up and given lunch detention.

F. Loss of Credit Due to Absence

A student must be present 90% of the semester in each class in order to receive credit for that class. All absences, excused or unexcused, will be counted toward loss of credit with the exception of the following: illness confirmed by physician, suspensions, death of immediate family member and school activity absences. A doctor's note must be provided within a week (five school days) of the absence. It will not be accepted after that time and the illness absence will count against the student toward the loss of credit in those classes.

If a student is absent from a class more than 10% of the semester, an "F" will be recorded if that was the grade earned; if the student would have earned a passing grade an "NC" will be recorded. In case of extenuating circumstances, the principal or designee will make the final decision.

ARTICLE III: STUDENT BEHAVIORAL EXPECTATIONS/DISCIPLINE

Discipline Policy - Point System

In order to maintain a highly conducive atmosphere for learning to take place, discipline must be at the forefront. In order to maintain this structure it is sometimes necessary to discipline a student. The belief is that if the student is disciplined then they will refrain from that undesired behavior. In certain cases, students fall short of the expectation, and they should be held accountable for their actions and repeat offenders will not be encouraged. The virtues of respect, responsibility, punctuality and readiness are all ones that will serve the student well in their endeavors after middle school. The point system that will be in place will accumulate by semester.

Point System

Infraction:

- 1st point - Lunch Detention
- 2nd point - Lunch Detention
- 3rd point - Lunch Detention
- 4th point - After School Detention
- 5th point - After School Detention
- 6th point - 1 Day of AISP
- 7th point - 3 Days of AISP
- 8th point - 5 Days of AISP
- 9th point - 3 Days of Out of School Suspension
- 10th point - 5 Days of Out of School Suspension

A. Disciplinary Procedures

Development of good discipline is one of the most important goals of education. Discipline is the development of self-control,

character, and proper consideration for other people. Understanding the purposes of discipline in school facilitates the formation of positive attitudes and assists the student in doing his part to make himself a better person and the school a better place. So that Elgin Schools can maintain the best learning environment possible, the administration and faculty have expectations of the students. Those expectations are:

- Appropriate school behavior: Classroom behavior that assures the right of every student to learn and the right of every teacher to teach. Appropriate out-of-classroom behavior demonstrates respect for the personal and property rights of other students, faculty, and staff.
- Arrival at school and to class on time.
- Daily school and class attendance.
- Appropriate use and care of the building and facilities of the school.
- Cooperation with the school staff as they attempt to meet the varied educational needs of all students.
- Adherence to acceptable standards of courtesy, decency and morality, and compliance with provisions of civil law.

Failure to meet the above expectations will result in specified consequences for various infractions plus loss of privileges.

Control and Discipline Policy

The school's primary goal is to educate, not discipline. However, when the behavior of an individual student comes in conflict with the rights of others, corrective actions are necessary for the benefit of the individual and of the school.

Oklahoma State Law (70-6-114) gives the teacher the same rights as a parent to control and discipline such child according to local policies. The following schedule is an aid to them in control and discipline. However, every possible incident cannot be spelled out. Therefore, teachers may discipline or control incidents that may arise in a responsible manner that they deem necessary at the time the child is in attendance, in transit to or from the school, or any other school function authorized by the school district. Students who are seen in the office for an excessive number of disciplinary referrals will lose all privileges (off-campus, school functions, banquets/prom, ball games, stock shows, etc.).

Infractions:

- Unexcused tardiness - see page 7.
- Disruption of class or assembly.

Students are considered fighting when they are hitting, kicking, biting, etc. (no matter who throws the first punch, starts the mouthing, or threatening a claim of self-defense in the use of force will not exempt a student from discipline). The police department will be called and the students who are fighting will be placed in their custody.

Students, who have been suspended or are on disciplinary referral, will not be allowed to attend school functions, activities, or leave campus.

B. Dress Code

The Elgin Middle School Student Dress Code is in place to support a positive, safe, and respectful learning environment for all students. While students often express themselves in the way they dress, it is important that students wear clothing that is respectful and appropriate for a middle school setting.

Parents may use the following as a guide to support students in dressing appropriately during the school day.

- Wearing a head cover of any kind indoors is considered inappropriate. All caps, hats, etc., will be removed when inside the building at EMS. Head coverings worn inside the building will be confiscated.

Silent status is not allowed. This includes the lunch time as well. If students are seen using their phone or electronic device or if the device is heard the name of the student will be referred to the office for discipline. Students may use cell phones and electronic devices before school (8:20 a.m.) and after school (3:25 p.m.) and at after-school functions.

G. Academic Dishonesty

Any attempt to obtain credit for work done by another is totally unacceptable at Elgin Middle School. This includes cheating on tests, copying work of others, copying word-for-word from published works (plagiarism), improper use of the Internet, and similar activities.

When a student participates in a form of academic dishonesty:

J. Internet Acceptable Use Policy Terms and Conditions

The Internet is an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. The Board of Education believes that the use of the Internet will further education at Elgin Public Schools by promoting the exchange of information and ideas. For that reason, the school district has made Internet access available to staff and students.

Acceptable Use

Since the Internet constitutes an unregulated collection of educational resources, which change constantly, it is not possible to predict or control exactly what resources users may locate. The school district makes no guarantees of the accuracy of the information or the appropriateness of materials which a user may encounter. Students will be under teacher supervision when using the Internet; however, it is not possible to constantly monitor individual students and what they are accessing. Students and other users will refrain from intentionally accessing and downloading any text, picture, or online conferencing that includes material which is considered to be obscene, libelous, indecent, vulgar, profane, or lewd; advertises any product or service to minors prohibited by law; presents a clear and present danger; or will cause the commission of unlawful acts or the violation of lawful school regulations.

Users will be courteous and polite. Messages will be concise and not abusive in content or language. Personal information should not be revealed over the Internet. Users must be aware that any message or information posted on the Internet may be accessed by others for whom it is not intended.

Users of the services will respect any copyright and license agreements. Copyrights software, pictures, or music will not be downloaded for use which violated the copyright laws.

Privileges

The use of the Internet is a PRIVILEGE, not a right! Violation of the Internet Acceptable Use Policy will result in forfeiture of all Internet user privileges. Violators shall also be subject to appropriate disciplinary action.

K. Bus Rider Rules

Riding a school bus is a privilege and the privilege may be removed for not abiding by the bus rider rules.

Previous to loading, students should:

- Be on time at the designated school bus stops. The bus will pull up to bus stop with loading lights on stop and honk horn one time before proceeding to next stop. It is the duty of students and parents to have students at the bus stop on time waiting for the bus.
 - On mornings that it is raining or severely cold, the bus will stop and honk the horn one (1) time for students to be at

the bus stops. The bus will not wait unless students are jogging toward the bus.

- Stay off the road at all times while waiting for the bus.
- Wait until the bus comes to a complete stop before attempting to enter.
- Be careful in approaching bus stop.
- Do not move toward the bus at the school-loading zone until the bus has been brought to a complete stop.

- Keep all parts of the body inside the bus.
- Refrain from eating and drinking on the bus.
- The use of any form of tobacco, alcohol, or drug is prohibited.
- Assist in keeping the bus safe and clean at all times.
- Remember that loud talking and laughing or unnecessary confusion diverts the driver's attention and may result in a serious accident. (The life you save may be your own.)
- Treat bus equipment as you would valuable furniture in your own home.
- Damage to seats, etc., must be paid for by the offender.
- Never tamper with the bus or any of its equipment.

After leaving the bus:

- Go at least ten (10) feet in front of the bus, stop, check traffic, wait for bus driver's signal, then cross the road.
- Go home immediately, staying clear of traffic.
- Help look after the safety and comfort of small children.

L. Dangerous Weapons

It is the policy of the Elgin School District to comply fully with the Gun-Free Schools Act.

Any student in this school district who uses or possesses a firearm at school, at any school-sponsored event, or in or upon

any school property including school transportation or school-sponsored transportation will be removed from school for not less than one full calendar year.

Such firearm or weapon will be confiscated and released only to proper legal authorities.

Oklahoma Statutes, Title 21, Section 1280.1 prohibits any person, except a peace officer or other person authorized by the Board of Education of the district, to have in such person's possession on any public or private school property or while in any school bus or vehicle used by any school for transportation of students or teachers any weapon as defined below:

"...any pistol, revolver, dagger, Bowie knife, dirk knife, switch-blade knife, spring-type knife, sword cane, knife having a blade which opens automatically by hand pressure applied to a button, spring, or other device in the handle of the knife, blackjack, loaded cane, billy, hand chain, metal knuckles, or any other offensive weapon."

ARTICLE IV: STUDENT RIGHTS AND RESPONSIBILITIES

A. Locks and Lockers

These lockers are school property and the contents are subject to school inspection. Students should not have anything in their lockers they do not want school officials to see. **Elgin Middle School does not assume responsibility for property removed or stolen from lockers.** The school reserves the right to remove any lock from a locker when necessary. Students have no privacy rights where school lockers, desks or other school property are concerned. Lockers may only be decorated for school-sponsored events. Nothing should be placed on the locker that cannot be easily removed. If a student chooses to lock their locker the office will need an extra key or the combination in case of emergencies.

B. Library

Use of the library is encouraged for pleasure reading, as well as research. There will be a professional librarian on duty all day to help you with the use of the library. The library will be open before school, at noon, and after school, as well as during all class periods. Students must present a library pass to the librarian if they come during a class period. Classes will be taught each year to all fifth graders on the proper use of the library and its materials. Other classes will frequently visit the library and conduct research. Books may be checked out for a period of two weeks. There is no fine for overdue books; however, your library privileges will be suspended until the book is returned. If you lose a book, please notify the librarian at once. If it is not found by the end of the semester, it must be paid for. Certain reference books, magazines, and encyclopedias cannot be checked out. These must be used in the library. Absolutely no food, drink, or candy is permitted in the

library. Teachers who take their class to the library are required to remain in the library with their students.

C. Medication

The term "Medicine" as used in this policy means "nonprescription medicine" and "filled prescription medicine." "Filled prescription medicine" is prescription medication contained in a prescription vial with a label which correctly states the name of patient, name of prescriber, prescription number, and directions for the administration of the medication.

Only the following personnel shall be authorized to administer medicine at school: the school principal or school employees who have been designated in writing by the school and the school principal are authorized to administer medicine.

No medicine shall be administered unless the parent or guardian of the student requiring the medication has given written authorization to the school. The parent or guardian of any student requiring medication during school shall bring the medication to the principal of the school the student attends and complete and sign the "Parental Authorization" form given to each student. When a student enrolls in a particular school, the parent or guardian of the student may sign a "Clinic Card" authorizing the appropriate personnel to administer nonprescription medication to the student during an emergency when the parent or guardian cannot be reached. Each school shall keep on file the written authorization(s) of the parent or guardian of the student to administer medicine to the student.

Filled prescription medicine shall be administered pursuant to the directions for the administration of the medicine listed on the label, or as otherwise authorized in writing by the physician prescribing the same. Nonprescription medication may be dispensed and administered only in compliance with the written directions on the label of the medication, or as otherwise authorized in writing by the child's physician. All medication shall be properly stored, and not readily accessible to persons other than the persons who will administer the medication.

Each school in which any medicine is administered shall keep a record of the name of the student to whom the medicine was administered, the date the medicine was administered, the name of the person who administered the medicine, the type or name of the medicine which was administered, and the time the medicine was administered. The "Log of the Administration of Medicine" shall be used by each school to keep the record of all medicine administered during each school year.

The Board of Education adopts this policy pursuant to the provisions of 70.05 1984, 1160.2. Under this statute a school nurse, county nurse, administrator, or designated school employees are not liable to the student or his parent or guardian for civil damages for any personal injuries to the student which result from acts

or omissions of the school or county nurse, administrator or designated school employees in administering any medicine pursuant to the provisions of the statute. However, such immunity does not apply to acts or omissions constituting gross, willful, or wanton negligence.

D. Privacy Rights of Students

Pupils shall not have any reasonable expectation of privacy towards school administrators or teachers in the contents of a school locker, desk, or other school property. School personnel shall have access to school lockers, desks, and other school property in order to properly supervise the welfare of pupils. School lockers, desks, and other areas of school facilities may be opened and examined by school officials at any time and no reason shall be necessary for such search.

ARTICLE V: ACADEMICS

A. Grading

Grade Scale:

A = 90 – 100

B = 80 – 89

C = 70 – 79

D = 65 – 69

F = 64 – Below

I = Incomplete

Parents/Guardians may access student grades at

<http://www.wengage.com/elgingradebook/login.aspx>.

Parent passwords for the grade book will be mailed home at the end of August.

Students having incomplete grades at the end of a grading period, either nine weeks or semester, will have two weeks to complete all make-up work before final grades are calculated. This policy includes all students in regular attendance, as well as those students receiving homebound instruction.

At the discretion of the principal, an exception to this policy could be made for the following reasons:

1. Should a student be hospitalized, unable to do school work for more than two weeks just prior to the end of a grading period and/or,
2. Should a student be recuperating at home under a doctor's care, unable to do school work for more than two weeks just prior to the end of a grading period.

The teacher/administrator retains the authority to lower the number upon which the scale is computed if he/she feels it is necessary.

B. Eligibility

Elgin Public Schools is a member of the Oklahoma Secondary School Activities Association (OSSAA). In order to participate in any activity recognized by the OSSAA, a student must meet the eligibility requirements set forth by the association. A student will be informed when he/she is ineligible. The administration of Elgin Public Schools may withhold a student from participation at any time because of disciplinary reasons and failure to meet scholarship rules.

- A. Sponsors must list the students' names in the bulletin for extracurricular activities requiring loss of class time. (This should be completed 5 days prior to the day of the students' absence.)
- B. Students that are ineligible the first six weeks will not travel or participate as part of the team. They cannot attend school functions.

C. Eligibility Rules

SECTION 1 – Semester Grades

- A student must have received a passing grade in any five subjects counted for graduation that he/she was enrolled in during the last semester he/she attended fifteen or more days. (This requirement would be five school credits for the 7th and 8th grade students.)
- A student must maintain a ninety percent (90%) attendance record.
- If a student does not meet the minimum scholastic standard, he/she will not be eligible to participate during the first six weeks of the next semester they attend.
- A student who does not meet the above minimum scholastic standard may regain his/her eligibility by achieving passing grades in all subjects he/she is enrolled in at the end of a six-week period.
- Pupils enrolled for the first time must comply with the same requirements of scholarship. The passing grades required for the preceding semester should be obtained from the records in the school last attended.
- "Passing grade" means work of such character that credit would be entered on the records were the class trips in which the teacher is giving a related assignment and grade will be an exception to this procedure.

Ineligible students will not be allowed to go on field trips, class trips, dress-out, or travel to a school function with the sponsors or groups. Field trips and class trips in which the teacher is giving a related assignment and grade will be an exception to this procedure.

SECTION 3 - Special Provisions

- A student may maintain eligibility if he/she is passing all graded classes.
- An ineligible student who changes schools during a semester will not be eligible at the new school for a minimum period of three weeks. A student may regain his/her eligibility by achieving the scholastic standard in Rule 3, Section 2-b at the end of a three-week period.
- Incomplete grades will be considered to be the same as failing grades in determining scholastic eligibility. School administrators are authorized to make an exception to this provision (Rule 3, Section 3-c) if the incomplete grade was caused by an unavoidable hardship. (Examples of such hardships would be illness, injury, death in family, and natural disaster.) (Board policy allows a maximum of two weeks to apply this exception.)
- One summer school credit earned in an Oklahoma State Department of Education accredited program may be used to meet the requirements of Rule 3, Section 1-a, for the end of spring semester.
- School may choose to run eligibility checks on any day of the week. The period of ineligibility will always begin the Monday following the day eligibility is checked.

SECTION 4

Special education students who are enrolled in Special Education classes, have an Individual Education Plan and have been certified by the Principal as doing a quality of work may, with the approval of the Board of Directors, be accepted as eligible under this rule.

D. Homework – Make-Up Work

In the event that a student is absent from school, for any reason, they will be given the number of days they were absent plus one to complete all assignments for the classes in which they were absent. These absences include being absent for school activities, illnesses, etc. It is the student's responsibility to initiate make-up work scheduling with his/her teachers, including tests/projects. Homework may be requested by the parent or the student when absent; this practice would be recommended so that the student does not fall behind in their work. Even though the student or parent requests make-up work early, the student still falls under the "number of days" rule. A student will not be penalized for attempting to request work while absent. The "number of days" rule will go in effect upon his/her return to school.

E. Honor Roll

Students making all A's in a semester period shall be placed on the Superintendent's Honor Roll. Students making A's and B's in a semester grading period shall be placed on the Principal's Honor Roll. The following subjects will not be counted toward honor roll

eligibility; office assistant, teacher's assistant, library assistant and physical education classes.

National Honor Society

Admission requires a cumulative grade average of 93 percent or better (certain courses excluded). Membership is granted by a faculty/administration committee based on scholarship, attitude, and involvement in school activities, leadership, and service.

After you are admitted, your cumulative grade average is routinely checked. If it falls below 93 percent at any time, you are put on probation for the following semester. If at the end of that probationary period your average is at or above 93 percent, you are taken off probation. If it is still below 93 percent, you are dropped from membership and can never be readmitted.

Students in grades 7-9 who are dropped from membership of the National Junior High Honor Society may be admitted to the National Senior High Honor Society during grades 10-12 if their average once again reaches 93 percent.

Oklahoma Honor Society

Students in the academic top 10 percent of the Middle School and students in the academic top 10 percent of the Senior High are admitted to membership each spring in the Oklahoma Honor Society.

F. Proficiency Based Promotion

1. Upon the request of a student, parent, guardian, or educator, a student will be given the opportunity to demonstrate proficiency in one or more areas of the core curriculum.
 - a. Proficiency will be demonstrated by assessment or evaluation appropriate to the curriculum area, for example: portfolio, criterion-referenced test, thesis, project product, or performance. Proficiency in all laboratory sciences will require that students are able to perform relevant laboratory techniques.
 - b. Students shall have the opportunity to demonstrate proficiency in the core areas as identified in 70 O.S. 11-103.6:
 - Social Studies
 - Language Arts
 - The Arts
 - Languages
 - Mathematics
 - Science
 - c. Proficiency for advancing to the next level of study will be demonstrated by a score of 90% or comparable performance on an assessment or demonstration.
 - d. The opportunity for proficiency assessment will be provided at least once each school year for the 1993-

- 1994 and 1994-1995 school years. Beginning with the 1995-1996 years, this opportunity will be provided at least twice each school year.
- e. Qualifying students are those who are legally enrolled in the Elgin School District.
 - f. The district may not require registration for the proficiency assessment more than one month in advance of the assessment date.
 - g. Students will be allowed to take proficiency assessments in multiple subject areas.
 - h. Students not demonstrating proficiency will be allowed to try again during the next assessment period.
 - i. Exceptions to standard assessment may be approved for students with disabling conditions.
2. Students demonstrating proficiency in a core curriculum area will be given credit for their learning and will be given the opportunity to advance to the next level of study in the appropriate curriculum area.
- a. The school will confer with parents in making such promotion/acceleration decisions. Such factors, as social and mental growth should be considered.
 - b. If the parent or guardian requests promotion/acceleration contrary to the recommendation of school personnel, the parent or guardian shall sign a written statement to that effect. This statement shall be included in the permanent record of the student.
 - c. Failure to demonstrate proficiency will not be noted on the transcript.
 - d. Students must progress through a curriculum area in a sequential manner. Elementary, middle level, or high school students may demonstrate proficiency and advance to the next level in a curriculum area.
 - e. If proficiency is demonstrated in a 9-12 curriculum area, appropriate notation will be placed on the high school transcript. The unit shall count toward meeting the requirements for the high school diploma. The proficiency test/performance score will be recorded on the cumulative record as the course grade.
 - f. Units earned through proficiency assessment will be transferable with students among school districts within the state of Oklahoma.
3. Proficiency assessment will measure mastery of the priority academic student skills in the same way that curriculum and instruction is focused on the priority academic student skills. In other words, assessment will be aligned with curriculum and instruction.
4. Options for accommodating student needs for advancement after they have demonstrated proficiency may include, but are not limited to, the following:

- Individualized instruction
 - Correspondence courses
 - Independent study
 - Concurrent enrollment
 - Cross-grade grouping
 - Cluster grouping
 - Grade/course advancement
 - Individualized education programs
5. Elgin School District will disseminate materials explaining the opportunities of Proficiency Based Promotion to students and parents in the district each year. Priority Academic Student Skills and type of assessment or evaluation for each core curriculum area will be made available upon request.
 6. **Appropriate notation for core curriculum area completed**
Appropriate notation will be made for elementary, middle level, or high school level students satisfactorily completing a 9-12 high school curriculum area. Completion will be recorded with a grade. This unit will count toward meeting the requirements for the high school diploma.

G. Semester Tests

Semester tests will be comprehensive in all courses. Students must take each test as scheduled. Students who have an emergency must have a parent contact the school and a time will be arranged to make up the test. Students who do not take their test at the scheduled time or make arrangements through the office will receive a zero on the semester test. (Work, trips, leaving state for visits, and etc. are not emergencies.)

H. Gifted and Talented Education (G/T)

An important goal of the Elgin Public Schools is to identify and provide appropriate educational experiences for those students who give evidence of high performance capability in areas such as intellectual, creative, artistic, leadership capacity, or in specific academic areas. Multiple criteria are used to place students in the G/T Program. A copy of the District Plan for Gifted Student Educational Program is available for public inspection and may be attained at the school superintendent's office, the building principal's office, or the school counselor's office.

ARTICLE VI: GUIDANCE

A. Counselor

A counselor is available to assist students during the day. The counselor may assist students with career, academic and personal concerns. Students should meet with a counselor or any staff member when they feel assistance is needed.

B. Specialized Services for Students and Families

Juvenile Shelter

AIDS Hotline	1-800-826-2961
Child Welfare Hotline	1-800-522-3511
Reach OUT	1-800-522-9054

C. Class Schedule Changes

A request for a schedule adjustment must be petitioned through the Guidance Office no later than the fifth day of the semester. At that time if the schedule change is necessary, the counselor will provide a request form, which must be signed by the parent, teachers involved, the counselor, and the principal. However, classes will not be overloaded to accommodate schedule change requests. As necessary throughout the year, schedule adjustments are made for academic misplacements only.

D. Student Aides

A student may qualify for being an aide if he/she meets the following criteria:

1. The student must have a minimum 2.50 grade-point average and be approved by the receiving supervisor as well as the building principal.
2. The student must have no serious disciplinary action on his record, i.e. AISP or OSS. (Being placed in AISP or being suspended out of school may be grounds for being removed from the aide position and being placed in an alternate setting.)
3. The student must agree to follow directions and abide by the school tardy and attendance policy.
4. A student may serve as an aide for only one period during the school day.

E. Testing Program

Each year students in the Elgin Middle School will be administered a nationally standardized achievement test or CRT supplemented every other year by a group of Mental Ability tests. This procedure meets the State Department of Education requirements, as well as those of the Elgin Public School System.

Additional individualized testing is done upon referral with written parent/guardian permission. This testing is done for screening or placement purposes in special programs. All tests and test results are treated as confidential information with results kept on file in the counselor's or principal's office. Students and parent/guardians are encouraged to see these results and may do so upon request to the counselor. Questions concerning test results or the total testing program should be directed to the office in the individual buildings.

F. Promotion and Failed Classes

Students in grades five through eight must achieve a grade average of 65% or better in at least three core classes to be pro-

moted to the next higher grade. Core classes of student include Math, Science, English/Language Arts, Reading and Social Studies. Students that achieve a grade average of 64% or less in any core class will be required to repeat the failed core class during the next opportunity to take the class or make up the class in an approved summer school program. Approval of summer school programs will be made by the administration.

ARTICLE VII: STUDENT LIFE

A. Dances

Students who are ineligible will not be allowed to attend school dances.

B. Activities Program

The activities program is designed to offer opportunities for exploring, developing, and widening the student's range of interest, and to help the student develop leadership and poise. Participation in extracurricular activities enables students to learn how to plan and work with others.

Clubs may meet during the lunch period, tutorial, the scheduled activity periods, or at night. Students who want to form a new club should meet with the principal for assistance.

All clubs should have a file containing the following items: a constitution, a list of officers, a working budget, and a membership roster. Each club should perform at least one service project per semester. All projects and fund-raising activities should be scheduled in advance and listed on the school calendar in the principal's office.

School organizations shall hold absences from regular classes and classroom work to a minimum. Students or groups of students participating in activities while representing the school, but away from school property, whether academic or nonacademic, must have prior approval of the principal.

No students will be excused to attend grade school or high school plays, programs, attend track meets, ball games, or other activities on campus. Notes will not be accepted. If parents choose to check students out to attend on campus activities, the parents must accompany the student to the event. Students who have a brother/sister graduating may attend if the parent checks the student out at the office. (No letters or phone calls.) (It will count as an absence.)

The Elgin Board of Education subscribes to the philosophy that curricular and extracurricular activities should be mutually complimentary and enhance each other. Teachers should encourage students to participate in extracurricular programs and should plan and schedule major assignments in order to permit students to take part in such activities without jeopardizing their grades or achievement potentialities. At the same time, it is

important that activities be scheduled so that they do not disrupt the instructional process when such can be avoided. While the following policy will furnish some measure of direction and control to participation in extracurricular activities, it is still important that additional efforts be exerted to create an attitude of concern within the school to minimize conflicts between time allocated to instruction and that approved for extracurricular events.

Internal Activities Review Committee

The Board of Education will appoint an internal activities review committee. They will be responsible for periodic review, exception requests, and to annually review the entire activity policy. They will make recommendations to the Board of Education on any deviations to the policy. Activities covered under this policy: vocational agriculture, softball, FCCLA, band, basketball, cheerleading, speech, vocal music, volleyball, class activities, football, track, cross-country, wrestling, 4-H, yearbook, baseball, soccer, golf, weight-lifting and all clubs and organizations.

ARTICLE VIII: SAFETY PROCEDURES

A. Fire Evacuation Procedures

Three long bursts of the middle school bell will signal a fire or a fire drill. One continuous long ringing of the middle school bell will indicate "all clear" and buildings can be reentered. During a fire drill all other bells are to be ignored.

Student Procedures (5-8)

1. At the sound of the alarm, students will form a single line in the classrooms.
2. The teacher will quickly check the exit route and move to the head of the student line.
3. The teacher will signal the students to evacuate the building following the exit procedure previously posted in the room.
4. The students will move quickly out of the building while maintaining a compact group.
5. The teacher, after exiting the building, will proceed directly with the students to the designated area.
6. The teacher will immediately, upon reaching the designated area, implement their procedure of accounting for all students.
7. Upon hearing the "all clear" signal, teachers should lead their students in single line back into the classroom.

Teacher's Procedures

1. Teachers are responsible to familiarize themselves with the fire drill exit procedure posted in rooms where their classes are held.
2. Teachers are responsible for informing the students in each of their classes about the exit procedure for a fire drill once each nine (9) week period.
3. All teachers will identify a specific area safely away from the

building (designated area) where their classes will be taken upon evacuating a building during a fire or fire drill.

4. Teachers will inform the students in each class where the “designated area” is located.
5. Teachers must take their roll books when they exit the building.
6. Teachers will “actively supervise” their students and maintain an identifiable group while at the designated area.
7. Teachers should encourage silence among the students throughout the executions of the fire procedure.
8. Teachers should identify and make arrangements for the orderly evacuation of students having physical disabilities (assign students to assist, etc.).
9. Teachers, under any circumstances, should not permit a student(s) to leave the group to reenter the evacuated building.
10. Students should leave all books in the rooms. Personal items (purses, etc.) may be taken.
11. All other building occupants should evacuate the building according to the exit procedure posted in the room they occupy. They should move away from the building and wait for further instruction.
12. **SPECIAL NOTE: NO ONE IS TO REMAIN IN A BUILDING DURING A FIRE DRILL.**

B. Tornado Drill Procedures

When severe weather is threatening the area, administration will be in contact with the proper authorities and watching the weather via Channel 7, KSWO and the weather service. When the time arises to make our way to the sixth grade building safe room and the seventh/eighth grade building safe room, we will follow these procedures.

All classes in the fifth and sixth grade buildings will go to the safe room in the sixth grade building. All classes in the seventh and eighth grade building will go to the safe room in that building. The principal may, if he/she deems it appropriate, require certification by a health officer, nurse or medical doctor, that the disease, illness or infestation is no longer in a communicable stage whereby the student could infect fellow classmates. Parents that fail to take appropriate and immediate steps to cure the student's condition so that the student may return to school are in violation of state truancy laws and it shall be the principal's duty to report the truancy case to proper authorities as required by Oklahoma school law.

B. Acquired Immune Deficiency Syndrome (AIDS) Policy

Whenever any employee or student has reasonable cause to believe any employee or student has the condition known as Acquired Immune Deficiency Syndrome (AIDS), that employee or student shall report that belief to the Superintendent of Schools.  - B. If offered, the Superintendent must accept and read a medical report from a doctor of the employee's or student's choice if it is not the same doctor chosen by the Superintendent.
 - C. If there is a conflict in the reports, the Superintendent should do what he believes is reasonable under the circumstances to conform to the reports.

Any student found in possession of a firearm while on any public school property or while in any school bus or other vehicle used by a public school for transportation of students or teachers shall be suspended out of school for a period of not less than one (1) year, to be determined by the district board of education pursuant to the provisions of this section. The student will be asked whether he/she understands the rule or regulation, and be given a full opportunity to explain and discuss his conduct. If it is concluded that a suspension is appropriate, the student will be advised that he/she is being suspended and the length of suspension. The administration will attempt to notify the parents by phone, or in cases where the parents cannot be contacted by phone, they would be notified by letter.

The parents should be advised of their right to a conference with the principal at the time they are notified that a suspension has been imposed. At this conference, the parents or guardians will be read the rule or regulations, which the student has been charged with violating, and a brief outline of conduct on the part of the student. The student and his/her parents or guardians will be given the opportunity to present their side. been adjudicated as a delinquent for a violent offense as defined in 57 O.S. Section 571, or for possession of a dangerous weapon or controlled dangerous substance.

Students suspended out of school for 10 days or less have the right to appeal the decision of the appeals committee before they may be suspended out of school. The appeals committee decision will be final. Students suspended for 11 or more days have the right to request a review of the principal's decision to the administration of the district before they may be suspended out of school. If the administration upholds the principal's decision the suspension will begin. The student may appeal the review of the decision of the administration to the Board of Education. Such student or parents of the student will give notice in writing to the Superintendent within two (2) school days after his/her suspension if they request a review of the Superintendent's decision by the Board of Education. The Superintendent shall notify the Board of Education. The Board of Education or a hearing officer delegated by the Board of Education will conduct a full hearing of the matter. The Board or hearing officer shall determine the guilt or innocence of the student and the reasonableness of the term of the out-of-school suspension. Except for possession of a firearm, no out-of-school suspension shall extend beyond the current semester and the succeeding semester.

The following provisions shall apply to students who are suspended out of school.

Upon the out-of-school suspension, the parent or guardian of a student suspended out of school pursuant to the provisions of this subsection shall be responsible for the provision of a supervised, structured environment in which the parent or guardian shall place the student and bear responsibility for monitoring the student's educational progress until the student is readmitted into school. J. Substitute Teachers

In the normal operations of a public school it is not unusual for a regular teacher to be replaced by a substitute teacher. In many instances, the substitute is a community member that gives up his/her time to help out at our school. In most situations, a substitute teacher is at a huge disadvantage when entering a public school classroom. The substitute may not know any of the students by name. Additionally, the substitute may have never been in a position where it was necessary to control a classroom of middle school students. It is the belief of the staff of Elgin Middle School that substitute teachers should be treated as a guest in our school. Disruptive behavior by a student will be dealt with very harshly when the substitute is in the classroom.

K. Student Drug Testing Policy

Purpose and Intent: In an effort to protect the health and safety of its students from illegal and/or performance-enhancing drug use and abuse, the Board adopts the following policy for drug testing of students who participate in competitive extra-curricular activities ("Activity Students"), as well as any other student who voluntarily wishes to be tested. This policy supplements and complements all other policies, rules, and regulations of the District regarding possession or use of illegal and/or performance-enhancing drugs.

Although the Board, administration, and staff desires that every student in the District refrain from using or possessing illegal drugs, District officials realize that their power to restrict the possession or use of illegal and/or performance-enhancing drugs is limited. Therefore, this policy governs performance-enhancing and/or illegal drug use by students participating in competitive extra-curricular activities and those who voluntarily participate in the drug testing program. The sanctions imposed for violations of this policy by an Activity Student will be limited to the opportunity of such student to exercise the privilege of participating in competitive extra-curricular activities. No suspensions from school or academic sanctions will be imposed for violations of this policy.

In addition to Activity Students, any student who does not participate in any competitive extra-curricular activities may voluntarily consent to being tested on a random and a reasonable suspicion basis, with permission of a parent, legal custodian, or legal guardian. This would allow parents and guardians to be notified as to a potential drug problem and enable them to seek help.

Participation in school-sponsored competitive extra-curricular activities at the District is a privilege. Students who participate in these activities should be respected by the student body, as well as the District and the community they represent. Accordingly, students in competitive extra-curricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, sportsmanship, and training, which includes avoiding the use or possession of illegal drugs. Illegal and performance-enhancing drug use of any kind is incompatible with the physical, mental, and emotional demands placed upon participants in extra-curricular activities and upon the positive image these students project to other students and to the community on behalf of the District. For the safety, health, and well being of students in extra-curricular activities, the District has adopted this policy for use by all participants in competitive extra-curricular activities in grades 7-12.

The purposes of this policy are five-fold:

1. To educate students of the serious physical, mental, and emotional harm caused by illegal and/or performance-enhancing drug use.

2. To alert students with possible substance abuse problems to the potential harms that drug use poses for their physical, mental, and emotional well-being and offer them the privilege of competition as an incentive to stop using such substances.
3. To ensure that students adhere to a training program that bars the intake of illegal and/or performance-enhancing drugs.
4. To prevent injury, illness, and harm for students that may arise from illegal and/or performance-enhancing drug use.
5. To offer students practices, competition, and school activities free of the effects of illegal and/or performance-enhancing drug use.

The administration may adopt regulations to implement this policy.

In order for a student to be referred for testing on a "reasonable suspicion" basis, the student's activity sponsor or teacher and at least one (1) building administrator must agree to the reasonable suspicion. The name and identity of any student referred on "reasonable suspicion" will be kept confidential. "Reasonable suspicion" would not include overtly recognizable signs of present illegal drug use, such as a perceptible odor of drugs, erratic behavior reasonably attributable to illegal drug or alcohol use, or perceptible odor of alcohol. Instances such as these would subject the student to ordinary disciplinary action apart from this policy.

PROCEDURES:

1. **Consent Form: Activity Students:** Each Activity Student shall be provided with a copy of the form "Student Drug Testing Consent: Activity Student" which shall be read, signed, and dated by the student, parent or guardian, and coach/sponsor before such student shall be eligible to practice or participate in any competitive extracurricular activities. The consent requires Activity Students to provide a urine sample and submit to drug testing: [a] as part of the Activity Student's annual physical or for eligibility for participation; [b] when the Activity Student is selected by the random selection basis to provide a urine sample; [c] at any time when there is reasonable suspicion to test for illegal and/or performance-enhancing drugs. No Activity Student shall be allowed to practice or participate in any competitive extracurricular activities involving interscholastic competition unless the Activity Student has returned the properly signed Consent Form. An Activity Student who moves into the District after the school year begins will have to provide a Consent Form and undergo a drug test before he/she will be eligible for participation in any competitive extra-curricular activity.
2. **Consent Form: Non-Activity Students:** Other students who wish to participate in the District's drug testing program shall be pro-

vided a copy of the form "Student Drug Testing Consent: Non-Activity Student." No coach/sponsor signature is required on this form. Non-activity students who volunteer to participate in the drug testing program consent to provide a urine sample when the student is selected by the random selection basis or at any time when there is reasonable suspicion to test for illegal or performance enhancing drugs.

3. **Orientation:** Prior to the commencement of drug testing each year, an orientation session will be held to educate Participating Students of the sample collection process, privacy arrangements, drug testing procedures, and other areas which may help to reassure the student and help avoid embarrassment or uncomfortable feelings about the drug testing process. Each Participating Student shall receive a copy of the Student Drug Testing Policy. The administration will be responsible for explaining the policy to all Participating Students and for preparing an educational presentation to acquaint the students with the harmful consequences of drug and alcohol use and abuse.
4. **Testing:** Drug use testing for Participating Students will also be chosen on a random selection basis from a list of all Participating Students. The District will determine a number of Participating Student names to be drawn at random to provide a urine sample for drug use testing for illegal drugs or performance-enhancing drugs. In addition, any Participating Student for whom the administration has reasonable suspicion of illegal and/or performance-enhancing drug use by that particular student will be included with the random tests and will not be identified in any way as separate from the random group.

Any drug use test will be administered by or at the direction of a professional laboratory chosen by the District. The professional laboratory shall be required to use scientifically validated toxicological testing methods, have detailed written specifications to assure chain of custody of the specimens, and proper laboratory control and scientific testing.

All aspects of the drug use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of the student to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility behind a closed stall. The principal/athletic director shall designate a coach, sponsor, or school employee of the same sex as the student to accompany the student to a restroom or other private facility behind a closed stall. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to

insure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the principal/athletic director, who will then determine if a new sample should be obtained. The monitor shall give each student a form on which the student may list any medications legally prescribed for the student he or she has taken in the preceding thirty (30) days. The parent or legal guardian shall be able to confirm the medication list submitted by their child during the twenty-four (24) hours following any drug test. The medication list shall be submitted to the lab in a sealed and confidential envelope and shall not be viewed by district employees.

An initial positive test result will be subject to confirmation by a second and different test of the same specimen. The second test will use the gas chromatography/mass spectrometry technique. A specimen shall not be reported positive unless the second test utilizing this procedure is positive for the presence of an illegal drug or the metabolites thereof. The unused portion of a specimen that tested positive shall be preserved by the laboratory for a period of six months or the end of the school year, whichever is shorter. Student records will be retained until the end of the school year.

Confidentiality: The laboratory will notify the principal/athletic director or designee of any positive test. To keep the positive test results confidential, the principal/athletic director or designee will only notify the student, the head coach/sponsor (if applicable), and the parent or custodial guardian of the student of the results. The principal/athletic director or designee will schedule a conference with the student and parent or guardian and explain the student's opportunity to submit additional information to the principal/athletic director or to the lab. The District will rely on the opinion of the laboratory which performed the test in determining whether the positive test result was produced by something other than consumption of an illegal and/or performance-enhancing drug.

Test results will be kept in files separate from the student's other educational records, shall be disclosed only to those school personnel who have a need to know, and will not be turned over to any law enforcement authorities.

Appeal: An Activity Student who has been determined by the principal/athletic director to be in violation of this policy shall have the right to appeal the decision to the Superintendent or his/her designee(s). Such request for a review must be submitted to the Superintendent in writing within five (5) calendar days of notice of the positive test. An Activity Student requesting a review will remain eligible to participate in any extracurricular activities until the review is completed. The Superintendent or his/her designee(s) shall then determine whether the original finding was justified. No

further review of the Superintendent's decision will be provided and his/her decision shall be conclusive in all respects. Participation in all extra-curricular activities including all meetings, practices, performances, and competition for the remainder of the school year or eighty-eight (88) school days (one semester) whichever is longer. Parents should strongly consider additional assistance from outside sources, including, but not limited to, the possibility of drug treatment centers. School officials will co-operate to help expedite this procedure, if it determined necessary by the student and parents.

Refusal to Submit to Drug Use Test: A Participating Student who refuses to submit to a drug test authorized under this policy shall not be eligible to participate in any activities covered under this policy, including all meetings, practices, performance, and competitions for the remainder of the school year. Additionally, honors or awards given by the District.
